

## **Data Access Agreement for Participants**

### ***1. Definitions***

\* **Data** means all data downloaded from the Multi-Sequence Cardiac MR Segmentation Challenge 2019 held in conjunction with the workshop “Statistical Atlases and Computational Models of the Heart: Imaging and Modelling Challenges” (STACOM’19) and MICCAI’19.

\* **Recipient** means a researcher who has previously completed this Data Access Agreement (Section 2) and has received acknowledgement of its acceptance.

### ***2. Recipient***

Please complete the following information for participants processing the data at your Institution

**Name:**

**Email:**

**Affiliations:**

**Signature:**

### ***3. Purpose***

The purpose of disseminating the Data is to perform a multi-institutional analysis of a database of anonymized clinical LGE CMR scans for cardiac segmentation. This analysis is taking place in the context of the Multi-Modality Left and Right Ventricles Segmentation Challenge. The data are downloaded for this sole purpose and cannot be used in another context.

### ***4. Confidentiality***

The Recipient(s) and the permanent staff signing this document commit to not disseminate the Data to any third party.

### ***5. Retention***

The Recipient(s) and the permanent staff signing this document commit to delete their copies of the Data latest 24 months after the 9nd of September 2019.

***6. Signature of a permanent staff member at the involved institution.*** This person takes responsibility for all Recipients (Section 2) to respect the terms of this agreement at his/her institution.
